

# Multiples – **Home** Photo Shooting Assignment

Create a similar image placing yourself or another person multiple times (**at least 5**) in the same background. You must do this at home or some other location other than school. Think about this a **narrative** (tell a story). Try and think of how you could interact with yourself (talking, playing a game, cooking, washing your car, etc.) with yourself to tell this story.

A photograph has the ability to convey emotion, mood, narrative, ideas and messages – all of which are important elements of storytelling.

A **tri-pod** or **taping down your camera so it does not move will be required to keep the camera in the same position when take these images**. Another person can take the picture of you or you could check and see if there is a **timer setting** on your camera. **You must be very careful to make sure the camera does not move. If the camera does move the effect will NOT work.**

**Use masking tape if you don't have a tripod!**
